Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim Claims 1-18 are rejected under 35 U.S.C. 102(b) as being anticipated by JP 1106297.
3. JP 297' teaches a single crystal seed crystal of silicon carbide having an angle of inclination in the [0001] direction from the {11-20} plane ranging from –30 to 30 degrees and an angle of rotation (beta) of –10 to 10 degrees (see translation abstract. These ranges overlap the ranges claimed by applicant in claims 1-18 or would make the properties claimed inherent in the disclosed material of JP '297.

Response to Arguments

4. Applicant's arguments filed 1/30/2007 have been fully considered but they are not persuasive. The rejection over US Patent # 5,248,385 has been withdrawn due to attorney argument. However, the 102 rejection over JP' 297 is maintained. Applicant argues that the present invention is distinguished from the prior art in the "degree of stacking defects" (page 7 arguments 1/30/2007). However, these arguments are not

Art Unit: 1775

commensurate in scope with the claims, nor is it clear how this defines over the prior art since the angle of the reference overlaps with the claims. Nowhere in the claims does applicant claim the "degree of stacking defects". Further, applicant acknowledges that the JP' 297 reference teaches an overlapping range (page 7 arguments 1/30/2007); necessitating a finding of anticipation. The rejection is maintained as above.

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
